Photography commission brief, April 2023.

About High Peak and Hope Valley Community Rail Partnership

High Peak and Hope Valley Community Rail Partnership (HP&HVCRP) is a partnership which brings together residents, community interest groups, local authorities and train companies who share a common interest in promoting the stations and passenger train services in the Peak District area of North Derbyshire, East Cheshire and a tiny bit of Sheffield at Dore & Totley Station.

The partnership area covers the Buxton – Manchester Line from Buxton as far as Disley; also the three Derbyshire stations on the Hadfield/Glossop – Manchester Line at Hadfield, Glossop and Dinting; and finally the Sheffield – Manchester Line between Dore & Totley Station and New Mills Central Station.

The Brief

We would like you to capture still colour images, mostly for use in newsletters and on our digital channels. The images will be held as part of a bank that can be used for anything from our website to social media and print materials. They should mostly be generic images.

Please capture the following as a guide:

- Images of a diverse range of people and families – by age, ethnicity, gender, disabilities - using the train at stations along the Buxton and Glossop lines. In particular, along the Buxton line.
- Images of the following stations and immediate surroundings (views and the station in context of the town it serves): Buxton, Chapel en le Frith, Whaley Bridge, New Mills Newtown, New Mills Central and Glossop.
- Seasonal images where applicable at stations and station surrounding - flowers in planters, autumn trees, views and wildlife (where applicable)
- Images of Station Friends groups at work. Most Friends groups meet monthly for a volunteering session.

Please caption all images and provide signed model release forms where necessary.

All photos of people should aim to include as diverse a range of ethnicities, disabilities, age, gender etc

In addition to these images of people, up to 10 images of each station and station surrounds where practical

Travel and expenses

In order to get seasonal images at each of the below stations, we anticipate you may need to make two trips to each station (one in spring/summer, one in autumn) plus potentially an additional trip to Buxton, Glossop and New Mills to photograph the Friends groups at work.

Please include an estimate of your reasonable travel expenses based on a rate of 45p per mile, and/or public transport costs. The maximum available for this is £500.

We anticipate the brief will take approximately 40 hours to fulfil spread over spring-autumn 2023, plus editing time. We would like to receive photos in batches as they are captured, with the final batch to be received no later than Friday 20 October 2023.

Example wishlist of specific shots:

Season	**Station**	**Image**
Any	Any	A group of young people on the train
Any	Any	A family on the train
Any	Any	A group including someone using a wheelchair, mobility aid or visible disability on the train
Any	Any	A group including someone wearing a sunflower lanyard (indicating an invisible disability) on the train
Spring	Buxton	A family with young children waits on the platform
Summer	Buxton	Buxton Fringe Festival goers alight at Buxton
Autumn	Buxton	Young people alight/board the train
Any	Buxton	Friends of Buxton Station
Spring/Summer	Chapel en le Frith	The view from the station in spring/summer
Autumn	Chapel en le Frith	The view from the station in autumn
Any	Chapel en le Frith	Young people board the

		train to Manchester
Spring/autumn	Glossop	A family with young children waits on the platform
Spring/autumn	Glossop	Passengers alight at Glossop
Spring/autumn	Glossop	Young people alight/board the train
Any	Glossop	Friends of Glossop Station
